JOSH MEYER

joshua.richard.meyer@gmail.com

jrmeyer.github.io

I'm a PhD candidate passionate about Machine Learning and open-source language technologies. My educational background is in Computational Linguistics, Theoretical Linguistics, Natural Language Processing, Statistics, and Cognitive Science. My PhD thesis focuses on Speech Technology, and Automatic Speech Recognition in particular. I work to develop approaches for training more robust Deep Neural Networks for Speech Recognition, using Multi-Task Learning and Transfer Learning. My research is linguistically informed, but based in machine learning methods.

Currently based in San Francisco.

EDUCATION

University of Arizona — Expected 2019
Ph.D. in Linguistics (focus: *computational linguistics*) — *Tucson, AZ*

University of Arizona — May 2015
M.A. in Linguistics — *Tucson, AZ*

Seton Hall University — May 2012
B.A. in Liberal Studies — *South Orange, NJ*

INDUSTRY EXPERIENCE

Mozilla (Machine Learning Research Group) — October 2018 — Present
NSF-Sponsored Internship
Developing end-to-end multilingual Automatic Speech Recognition techniques based on Transfer Learning and Deep Neural Networks (i.e. DeepSpeech).

Various Companies — 2016 — 2018
Kaldi & ASR Consultant
Optimized Automatic Speech Recognition pipelines for various companies using the Kaldi toolkit.

TECHNICAL STRENGTHS

Computer Languages	Python, Bash, MATLAB, Perl, R, C++ (*some knowledge*)
Other	TensorFlow, Kaldi, Linux, Amazon Web Services, git & GitHub

OPEN SOURCE WORK

Mozilla DeepSpeech	*Added Transfer Learning branch*	**[Code]**
NVDA	*Added Kyrgyz language to screen reader*	**[Code]**
eSpeak NG	*Added Kyrgyz language to speech synthesizer*	**[Code]**
Autotrace	*Created tools for tongue contour visualization*	**[Code]**

RESEARCH EXPERIENCE

National Science Foundation July 2015 — Present
Graduate Research Fellow

Conducting PhD thesis research on Multi-Task Learning and Deep Learning techniques for Automatic Speech Recognition in low-resource data scenarios

CNRS-LIMSI July 2016 — July 2017
Chateaubriand Research Fellow *Orsay, France*

DNN acoustic model adaptation and RNN text augmentation techniques

American University of Central Asia June 2015 — August 2015
Visiting Research Scholar *Bishkek, Kyrgyzstan*

Created a spoken corpus of the Kyrgyz language

Arizona Phonological Imaging Lab Spring 2015
Research Assistant *Tucson, AZ*

Developed software to process ultrasonic images

American University of Central Asia August 2013 — March 2014
Visiting Research Fellow *Bishkek, Kyrgyzstan*

Conducted acoustic-phonetic and phonological research

Language Acquisition Research Center at Hunter CUNY November 2011 — August 2012
Research Assistant *New York, NY*

Transcribed spontaneous speech; Aided in website construction

KIT/NYU MEG Lab at NYU May 2012 — August 2012
Research Assistant *New York, NY*

Aided in data analysis and processing

Language Acquisition and Neurolinguistics Lab at Rutgers May 2012 - August 2012
Research Assistant *New Brunswick, NJ*

Aided in experiment design

GRANTS & AWARDS

NSF INTERN Grant 2018
Approx. $50,000 *National Science Foundation*

Chateaubriand STEM Fellowship 2016
€5.000 *French Embassy to the United States of America*

GROW Travel Award 2016
$5,000 *National Science Foundation*

Graduate Research Fellowship 2015-2018
Approx. $102,000 + $36,000 (tuition) *National Science Foundation*

Visiting Research Fellowship August 2013 — March 2014
$5,000 *Central Asian Studies Institute, American University of Central Asia*

Regents Scholarship August 2008 — May 2012
$111,140 (tuition) *Seton Hall University*

PRESENTATIONS

Language Technologies in Central Asia: A Survey. Joint ESCAS-CESS Conference at the American University of Central Asia. *2017, Bishkek*

Predicting Language Dominance in Kyrgyz-Russian Bilinguals. w/ Quam, Carolyn Arizona Linguistics Circle 9. *2015, Tucson*

Phonological processing in Kyrgyz-Russian bilinguals. w/ Quam, Carolyn, and Bever, Thomas The Miniconference on Metrical Structure: Acquisition and processing. *2014, Utrecht*

The Kyrgyzstan corpus project: Building a language resource unique to Kyrgyzstan and available to all. CASI Public Seminar at the American University of Central Asia. *2014, Bishkek*

Now you hear it, now you dont: Phonological processing in Kyrgyz-Russian bilinguals. CASI Public Seminar at the American University of Central Asia. *2013, Bishkek*

Psycholinguistics: Thinking about language differently. Lecture conducted at The Platttform at Werkstatttraum. *2013, Berlin*

EVENT ORGANIZAION

Kyrgyz Voice Technology Hackathon Attended by undergraduate students as well as professional developers. *(2019, American University of Central Asia)* **[Link]**

DeepSpeech & Common Voice Tutorial Delivered to attendees of the Fifth International Workshop on Computational Linguistics for Uralic Languages. *(2019, University of Tartu)* **[Link]**

Speech Synthesis Workshop: Hands-on with Merlin & Ossian Delivered to Computational Linguistics Faculty and Graduate Students. *(2018, Higher School of Economics)* **[Link]**

Speech Recognition Workshop: Hands-on with Kaldi & DeepSpeech Delivered to Computational Linguistics Faculty and Graduate Students. *(2017, Higher School of Economics)* **[Link]**

WRITTEN TUTORIALS

How to Train *practically* any Model from *practically* any Data with TensorFlow **[Link]**

Getting started with the Merlin Speech Synthesis Toolkit **[Link]**

How to Train a Deep Neural Net Acoustic Model with Kaldi **[Link]**

How to add a new language to the eSpeak NG Speech Synthesizer **[Link]**

The Flow of TensorFlow: An Email Classification Tutorial **[Link]**

An Introduction to CMU-Sphinx Speech Recognition Toolkit: First Steps **[Link]**
